

COMPUTER INFORMATION SYSTEMS
Uvalde, Eagle Pass, and Del Rio Campuses
Limited Course Offerings at Off-Campus Sites

Purpose

The Computer Information Systems (CIS) program provides training for students who are interested in working in this expanding field of employment. The curriculum is designed to prepare students for entry-level positions in computer and network system configuration and management. Students get hands-on experience with computer hardware and software ranging from individual personal computers to local and wide area networking technology. The program focuses on preparation for Microsoft and Cisco certifications giving the successful graduate a tremendous competitive edge in gaining high-income employment in the computer industry. Computer Information Systems is a Tech Prep Program.

Admission Requirements

Students are admitted to the CIS program through regular college admission procedures (*see Admission Regulations section*). Students will receive an A.A.S. degree upon satisfactory completion of the courses of study and upon making formal application for graduation (*see Curricula section*).
